about MASB

Establishing Marketing Measurement & Accountability Standards

Year II Overview & Report
January, 2010
In the last quarter of the twentieth century, financial markets came to play an increasingly important role in shaping the structure and strategy of the corporation.

...chief financial officers took on the task of growth, helping rapidly expanding companies...with aggressive financing and by acquiring rivals.

...(in this era) the methods and practices of financial engineering...(made) corporations more profitable.
FASB set standards to support the rise of the CFO.

Prevalence of CFO Positions 1963-2000

These strategies...have moved in cycles of approximately 20-25 years for the past 130 years. At the end, there is often a recession or depression often accompanied by a long bearish stock market. Then the cycle begins anew.

...the methods and practices of financial engineering...have reached an endpoint in their ability to make corporations more profitable.

...the old tactics fail and this opens up the possibility for a new group of...managers to step forward and produce a new path.

The End of (Shareholder Value) Ideology
DR Neil Fligstein
UC Berkeley
August, 2004
Over the past year, dominance of the finance function has come into question as it has become clear that underlying assumptions do not always hold, that risk cannot be so readily “hedged” away with financial instruments, and that financial returns ultimately must be driven by buyer behavior in markets rather than by deal making.

David Stewart, UCR and MASB Chair (August 6 2009)
Marketing

The activity, set of institutions, and processes for creating, communicating, delivering, and exchanging offerings that have value for customers, clients, partners, and society at large.

Defined by AMA Board of Directors (2007)
The Opportunity

This implosion of the financial sector has created a unique opening for marketing to step into the void and reassert itself at the strategic planning table, by bringing credible metrics and processes for informing investment decisions and for managing risk.

David Stewart, UCR and MASB Chair (August 6 2009)
The Boardroom Project members saw it*

“Current economic modeling and dashboards go only so far”
“Current economic modeling and dashboards go only so far”
“They are only as good as the data or measurement put into them”
“They are only as good as the data or measurement put into them”
“We have to get to demand forecasting”
“We have to get to demand forecasting”
“We won’t be able to do that without better/forward informing metrics”
“We won’t be able to do that without better/forward informing metrics”
“Econometric modeling is forecasting from past performance, not based on the elements in hand going forward”
“Econometric modeling is forecasting from past performance, not based on the elements in hand going forward”
“It’s dealing with ‘averages’ and not identifying then understanding the ‘outliers’…the only way to forecast accurately & improve over time”
“It’s dealing with ‘averages’ and not identifying then understanding the ‘outliers’…the only way to forecast accurately & improve over time”

* Comments from founding members of The Boardroom Project
(Stewart, Blair, Sirkin, Riskey, Barns, Duffy)
And came to understand

After a 3 year study, members came to understand:

- Marketing has been relegated to the “default” category (control costs) because it lacks metrics that reliably tie activities and costs to corporate return in a predictable manner.

- Standards across industry and domain as well as a transparent process by which to develop and select the metrics will be necessary to emerge from the current situation.

- The market is unlikely to achieve consensus on its own.

- There is need for an industry level “authority” to establish the standards and to ensure relevancy over time.

The Premise & The Analogies

Marketing will move from discretionary business expense to board-level strategic investment through accountability and a standards setting “authority” for measuring (forecasting & improving) the financial return from marketing activities.

As is true for manufacturing and product quality (w/ISO & ANSI) and for accounting and financial reporting (w/FASB & IFAS), so it will be true for marketing and profitable growth (w/MASB).
It is clear that if measurement is disregarded in marketing…
the field will be slow to advance.

...objectives can be met only when measures are reliable
and valid.

...without measurement research, marketing has true GIGO,
garbage in-garbage out.

Michael L. Ray
Stanford University

1979
The Proposition

where marketing and finance align
on measurement
for reporting, forecasting and improving financial returns
from buyers in markets...short-term and over time.

AKA THE BOARDROOM PROJECT
Setting standards is not a one time event nor does it happen overnight

For both our models (FASB and ISO) progress is measured in years & decades
FASB and Rise of The CFO

ISO and Rise of Product Quality

30-40 More to be SOP

10 Yrs to Get Rolling
Setting standards is not a one time event nor does it happen overnight.

For both our models (FASB and ISO) progress is measured in years & decades.

*It has to start somewhere...*
MASB: Start-Up Objectives

Lay the Foundations:
- Articulate Vision & Mission
- Build solid Structure & Infrastructure
- Recruit highly qualified Directors, Advisors, Staff & Trustees
- Empower success through a Planning & Review Process
- Provide ample Funding & Data Resources
- Protect Independence & Integrity of Private Sector Body
- Assure Standards Projects fill the Needs of Marketing Community
- Allocate Resources in an Effective & Efficient Manner
- Guide the work w/Transparency, Integrity and Open Due Process
- Teach Marketing Community about the Standards & Benefits
Outline

- Vision & Mission
- Structure
- Precepts, Processes, Business Model
- Marketing Metric Audit Protocol (MMAP)
- Where We Stand
- Projects
- Summary
Vision

Laying the measurement foundations for marketing professionals to realize full accountability and strategic status in the Boardroom as reliable forecasters and achievers of consistent growth in customer revenues, earnings and cash flows quarter-to-quarter and year-to-year.

Measuring Success
CMO Tenure Increases
Organic Growth Targets Met More Often
CMOs On More Boards

Measurement is The Foundation for realizing the Vision

1. **Measurement**
   - Reliably identify business opportunities (or threats) given current context & (potential) actions (MR Vision 2003); Process of achieving & maintaining measurement reliability, predictive validity, sensitivity & calibration.

2. **Knowledge**
   - Profound understanding (of the business process or human & customer behavior) that yields a clear prioritization of action; Learning or principles that yield true predictions with unvarying uniformity (IBID); Process of explaining variance/identifying the causal drivers of the business or human behavior.

3. **Better Practice**
   - Documented method of operating that yields higher level of performance than other operating behaviors (IBID); Process of applying Knowledge to the operating process for improved performance.

4. **Forecasting Models**
   - Analytical technique that represent causal relationships among various conditions & actions taken to achieve specific business results, and forecast future outcomes of various potential actions & conditions (IBID).

Measurement standards are essential for the efficient and effective functioning of a marketing driven business, because decisions about the allocation of resources and assessment of results rely heavily on credible, valid, transparent and understandable information.

The role of MASB is in setting the standards and processes necessary for evaluating marketing measures in a manner that insures credibility, validity, transparency and understanding.
Original research is generally conducted by and published within the academic community… based on some form of survey research or measurement.

When results are promising, application and/or commercialization follows… by consulting, analytic or research firms.

Thus, there are numerous measures and metrics in the marketing literature and in practice, even some with the same or similar names.

They are usually quite different from one another in terms of operationalization, and most are poorly documented with respect to their reliability, validity, range of use, and sensitivity.

Few have been specifically linked to metrics associated with revenue growth, profitability, cash flow or other measures of financial performance.

Thus, while marketing does not lack measures, it lacks standard metrics explicitly linked to financial performance in predictable ways.

MASB will bridge the gaps between metrics identified in original research, those in practice, and those of the future - insuring credibility, validity, transparency and understanding for the guidance and education of business decision makers and users of performance and financial information.

MASB Measurement Projects start with a review of “what is known” about the measures in practice and end when one or more have been validated, profiled according to MMAP, and housed in the MASB Catalogue of Metrics.
Outline

- Vision & Mission
- Structure
- Precepts, Processes, Business Model
- Marketing Metric Audit Protocol (MMAP)
- Where We Stand
- Projects
- Summary
Precepts in Conduct of Board Activities

- Be open and objective in decision making
- Weigh carefully the needs and views of constituency
- Promulgate measurement & accountability standards when
  - Logical flow of the argument is tight
  - Empirical support material is convincing
  - Conclusions are managerially meaningful
  - Scientific evidence pro and con is acknowledged
  - Benefits exceed costs
- Ensure transparency of standards setting activity through open due process
- Assure output is understandable to practitioners
- Bring about needed change while minimizing disruption
- Review effects of past decisions (interpret, amend, replace)
Prioritization

- Pervasiveness of the Issue
- Alternative Solutions
- Technical Feasibility
- Practical Consequences
- Convergence Possibilities
- Cooperative Opportunities
- Resources
Funding Sources

- Membership
- Projects
- Workshops
- Technical Services
- Publications
- Training, Advisory & Auditing Services
Constituent Organizations

- Marketers
- Measurement/Modeling/Software Providers
- Media and Advertising Agencies
- Media Providers
- Academic Institutions (Business Schools)
- Industry Associations
- Independent Consultants

Note: Dues Structure Varies by Constituency and by Size of organization
While marketing does not lack measures, it lacks standard metrics explicitly linked to financial performance in predictable ways.

Cash flow both short-term and over time is the ultimate metric to which every business activity, including marketing, should be causally linked through the validation of intermediate marketing metrics.

The process of validating the intermediate outcome metrics against short-term and/or long-term cash flow drivers is necessary to facilitate forecasting and improvement in return.

The Marketing Metric Audit Protocol (MMAP) is a formal process for connecting marketing activities to the financial performance of the firm.

The process includes the conceptual linking of marketing activities to intermediate marketing outcome metrics to cash flow drivers of the business, as well as the validation and causality characteristics of an ideal metric.
MMAP: Marketing Metric Audit Protocol

Source: Young et al, 2006
Validation & Causality Audit

Every Intermediate Marketing Outcome Metric Should Be Validated Against Short-term and/or Long-Term Cash Flow Drivers and Ultimately Cash Flow (or to the Drivers of the Cash Flow Drivers).

Source: Young et al, 2006
MMAP: 10 Characteristics of Ideal Metrics

1. Relevant…addresses specific pending action
2. Predictive…accurately predicts outcome of pending action
3. Objective…not subject to personal interpretation
4. Calibrated…means the same across conditions & cultures
5. Reliable…dependable & stable over time
6. Sensitive…identifies meaningful differences in outcomes
7. Simple…uncomplicated meaning & implications clear
8. Causal…course of action leads to improvement
9. Transparent…subject to independent audit
10. Quality Assured…formal/on-going processes to assure 1-9

Source: The Boardroom Project, 2006; Stewart 2008
Overall Guidelines for Measures of Productivity

A. Return on Marketing Investment is inherently a financial construct. No measure or measurement system is complete without a specific link to financial performance.

   Measures of Return on Marketing Investment should:

B. Reflect financial concepts of return, risk, time value of money & cost of capital.

C. Provide information for guiding future decisions by predicting future economic outcomes as well as retrospective evidence of the impact of marketing actions.

D. Recognize both immediate, short-term effects of actions and longer-term outcomes, as well as the fact that short & long term effects need not be directionally consistent.

E. Recognize difference between total return and marginal return on investment.

F. Recognize that different products and markets produce different rates of return.

G. Distinguish between measures of outcome and measures of effort.

H. Provide information meaningful & comparable across products, markets and firms.

I. Clearly identify the purpose, form and scope of measurement.

J. Be documented in sufficient detail to allow a knowledgeable user to understand utility and make comparisons among alternative measures.

K. Be assessed relative to generally accepted standards of measurement development and validation.

L. Be recognized as a necessary investment for assuring sound decision-making, accountability, continuous improvement, and transparency for all stakeholders.

Outline

- Vision & Mission
- Structure
- Precepts, Processes, Business Model
- Marketing Metric Audit Protocol (MMAP)
- Where We Stand
- Projects
- Summary
We’ve accomplished a lot with a handful of visionary, passionate, and dedicated volunteers.

With a long way to go…and needs mounting…
More to be Done (C-Level Top of Mind Wish List)

- Measures on timing of returns (especially advertising)
- Separate out product from strategy from creative
- Return on trade spending
- Sponsorship metrics
- Forecasting cannibalization
- Forecasting competitive moves
- Return for portfolio
- Better definitions of causality/drivers
- All metrics connected to financials

This is an unprecedented opportunity to make a significant contribution to the marketing profession, business, and society overall.

Marketing is headed for *fundamental change* in mastering accountability & continuous improvement, taking its rightful place at the head of the strategic growth table, permanently.

MASB will enable this transformation & serve as the catalyst for advancement by *attending to measurement*. 
It will not be easy…it is going to take a lot of effort. If it was easy, someone would have already tackled this crucial issue.

The payoff for the marketing profession is worth the time, effort, and money.

Dr Joe Plummer, Past CRO
Advertising Research Foundation
Founding Director of MASB
May 12, 2006
Call to Action

It’s the right thing to do!
So let’s get over the “start-up” hump…pick up the pace…
make this thing really fly!

Become a Charter Member of MASB!
Take a seat as Founding Trustee!*
Help us recruit the other Founding Trustees!*
Take position on the MASB Board or Advisory Council.
Help guide the Standards Projects.
Be one of the “first in”!

* Marketer CMOs/CFOs
The development of generally accepted and common standards for measurement and measurement processes will significantly enhance the credibility of the marketing discipline, improve the effectiveness and efficiency of marketing activities, and enable continuous improvement over time.

Stewart, 2008
Thank-you!

for your commitment to MASB and the Vision of a better future for all who follow!
